

little lighthouse

Little Lighthouse is a professional consulting company specializing in psychological and behavioral services for children with developmental delays and other learning and behavioral challenges

We design professional development workshops for educational and other organizations on a wide range of subjects. The following list represents a sample of what we can offer.

- Early signs of delays and red flags for developmental disorders
- Referral process for diagnostic evaluations and family support
- What to do after a child is diagnosed with ASD or ADHD
- ASD, ADHD and mental health
- Effective inter-professional communication and collaboration
- How to prevent and address challenging behavior
- Understanding the behavioral aspects of feeding, sleep and toileting problems

Workshops can be tailored to the specific needs or interests of your organization.

To plan your workshop contact us at:
